

RecordTrak provides medical record review and analysis, tailoring our services to meet your needs.

#### **Medical Record Review**

Medical record chronologies and summaries are prepared by qualified professionals. A tiered service approach is offered to tailor a cost-efficient solution. RecordTrak offers these services for individual personal injury cases as well as mass-tort litigation.

These services, when combined with our record retrieval process, provide an integrated solution for our clients.

- Qualified nurse reviewers
- Tiered offerings
  - Basic record fact summary
  - Medical chronology
  - Medical chronology and summary
- Value-added analysis
  - Screen for merit
  - Identify causation
  - Assess injuries
  - Note contributing factors
- Customized to client protocol

We utilize reporting formats that allow our clients to focus on the significant medical events. The supporting documentation is fully referenced for ease of use. In fact, the online version of our chronology has embedded links to the supporting material. Our medical summaries help firms prioritize their cases. Utilizing our talents enables you to focus on yours.
